DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see pages 9-15, filed 7 July 2008, with respect to the prior art rejections of the claims have been fully considered and are persuasive. The prior art rejections of the claims made in the Office Action of 6 March 2008 has been withdrawn.

Allowable Subject Matter

2. Claims 1-9, 11-32 and 34-48 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1 and 43, the prior art fails to disclose or teach in reasonable combination a physiological sensor that is sized and shaped to be implanted into and within the myocardial wall to be chronically detectable by an implantable acoustic energy transducer, wherein the transducer measures a physical change in the sensor caused by a change in pH or ion concentration of the surrounding tissue.

Regarding independent claim 18, the prior art fails to teach the limitations described above wherein the sensor is more specifically a biocompatible sphere.

Regarding independent claim 19, the prior art fails to teach the method including the limitations of claims 1 and 43.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
